920	TRAFFIC → Heavy trucks still available on stand by. Not much to update. 9 staff on today Media Amy → Focus over next few days on business and residents. Messaging ready for weekend in case anything happens. Been in contact with BIA, community policing partners Off Springer → More people will be back in this room for weekend. Poy, etc. will be ready to have Poy unit on the ground within two hours at all times. Ops Dan → A few issues overnight with city. At some point traffic got to Wellington but that's been fixed. Pagers of coordinating the cars that opened with command shut down over night. Off Paddy → is everyone comfortable and up to speed on plan going forward, we need to make sure there is comfort also, we need to make sure messaging doesn't change to sense of over policing? Ops Amy → businesses want to see police. Residents do not, so balance is key. Off Springer → balance is key, all understood.
